

# Escea Pebbles Fuel Bed

These fuel beds have irregular roundish shapes modelled on nature which can act as a welcome contrast to other room design elements.

## White Pebbles

The white colour in the firebox creates a light airy space for gas flame performance. The play of light and shadows is mesmerising.

This fuel bed is available for:  
DX Series (DX1500, DX1000)  
DL Series (DL1100, DL850)  
IB Series (IB1100, IB850)

## Black Pebbles

This fuel bed has a more traditional coal effect and contrasts well with the fireplace's yellow flames. This is an ideal choice for the light finish of a fascia.

This fuel bed is available for:  
DX Series (DX1500, DX1000)  
DL Series (DL1100, DL850)  
IB Series (IB1100, IB850)

## New Zealand River Pebbles

This fuel bed is based on real stones from the fast flowing alpine rivers of Southern New Zealand. The mottled, earthy tones give a unique and distinctively modern look and feel to the fireplace.

This fuel bed is available for:  
DX Series (DX1500, DX1000)  
DL Series (DL1100, DL850)  
IB Series (IB1100, IB850)
